GELBODIES

The newest and most comprehensive Gelbodies range provides long term protection against pressure sores and nerve damage. Combining TRUGEL pressure relieving gel enveloped in soft and stretchy COOLBAND material, they are machine washable, but gel Inserts must be removed prior to laundering.

Gelbodies offer superior protection and relief.

Gelbodies are suitable for long term care and rehabilitation patients, and are for use in both the hospital and home care environment.

The coolband material feels great, is skin compatible and breathable.

This product is user friendly, lightweight, discreet and provides protection for all areas at high risk from pressure sores and nerve damage.

Heel and elbow protectors

Knee protectors

Also available:
Hip protector
Shin protector
Heel and ankle protectors

Sacral protection

CUSHIONS

We have an extensive range of pressure care cushions available, ranging from simple foam cushions to air filled cell cushions, gel cushions and combinations of foam and gel. We stock products from Otto Bock, Jay, Action, Karma, Roho and many more. All cushions are made in a variety of sizes. Please contact us for more specific advice.

ACTION PILOT CUSHION

The pilot cushion is a low profile gel cushion that provides good pressure relief for most users with a pressure ulcer history - comes standard with basic cushion cover - cushion made from Akton polymer that provides immersion for bony prominences and protects clients with fragile skin - multi-use cushion is recommended for use on manual and power wheelchairs - cushion thickness 2.54cm - cushion weight 5-6kg (approx.)

OTTO BOCK CUSHIONS

Otto Bock offer a range of cushions to suit most people who are dependent on a wheelchair. They include FLOAM (flows like fluid yet is as light as foam) filled cushions such as the Z-Flo, Advantage and Cloud. High grade foam cushions include the Cubicfoam and Combifoam. The ContourGel cushion combines foam and gel technology to minimise shearing forces.

JAY CUSHIONS

Jay offer cushions to assist with most postural support, from moderate to aggressive needs. Jay also offer a comprehensive back system that can be used in conjunction with the cushioning to achieve good postural support.
